ABOUT US

16,289

16,289 square meters of modern plant

45,000

45,000 units production capacity per month

70⁺

Foreign trade export business covers countries and regions

“

Luoyang DBin Office Furniture Co.,Ltd. founded in 2010 and headquartered in Luoyang, Henan Province, is a modern enterprise specializing in the research, development, production, and sales of steel office furniture products.

The company's main products such as filing cabinets, storage cabinets, mobile cabinets, pantry cabinets, and tool cabinets, dedicated to providing customers with a comprehensive storage solution.

As a manufacturer, DBin has a modern factory covering an area of 20,000 square meters and advanced equipment, with a monthly production capacity of up to 45,000 units. Future development plans include the construction of a new factory covering 70,000 square meters to provide more comprehensive guarantees for production capacity.

”

FACTORY STRENGTH

We pursue the inheritance and innovation of classic

Digitizing cutting

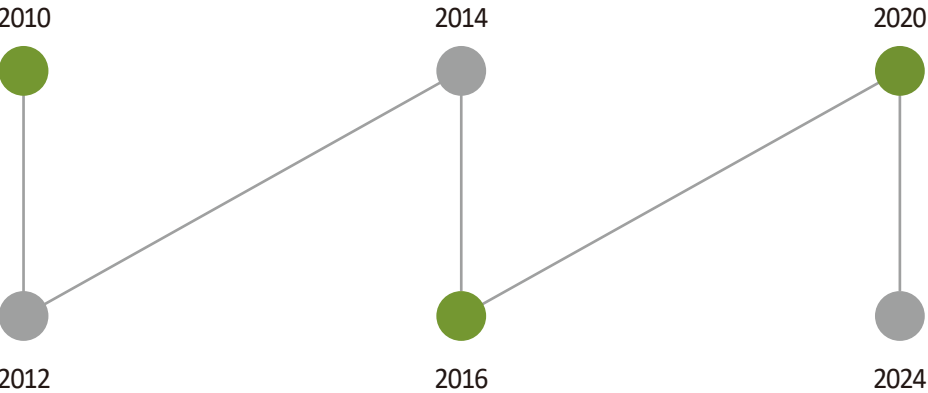

Integrated stamping

Company was established, and the foreign trade export business started at the same time.

Export to more than 70 countries and regions

Recognized as a high-quality supplier of cross-border e-commerce

Intelligent automatic welding

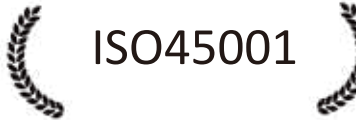

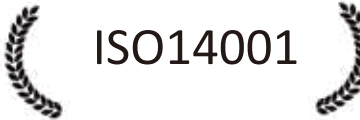

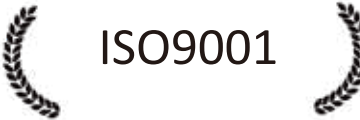

Environmentally friendly spraying

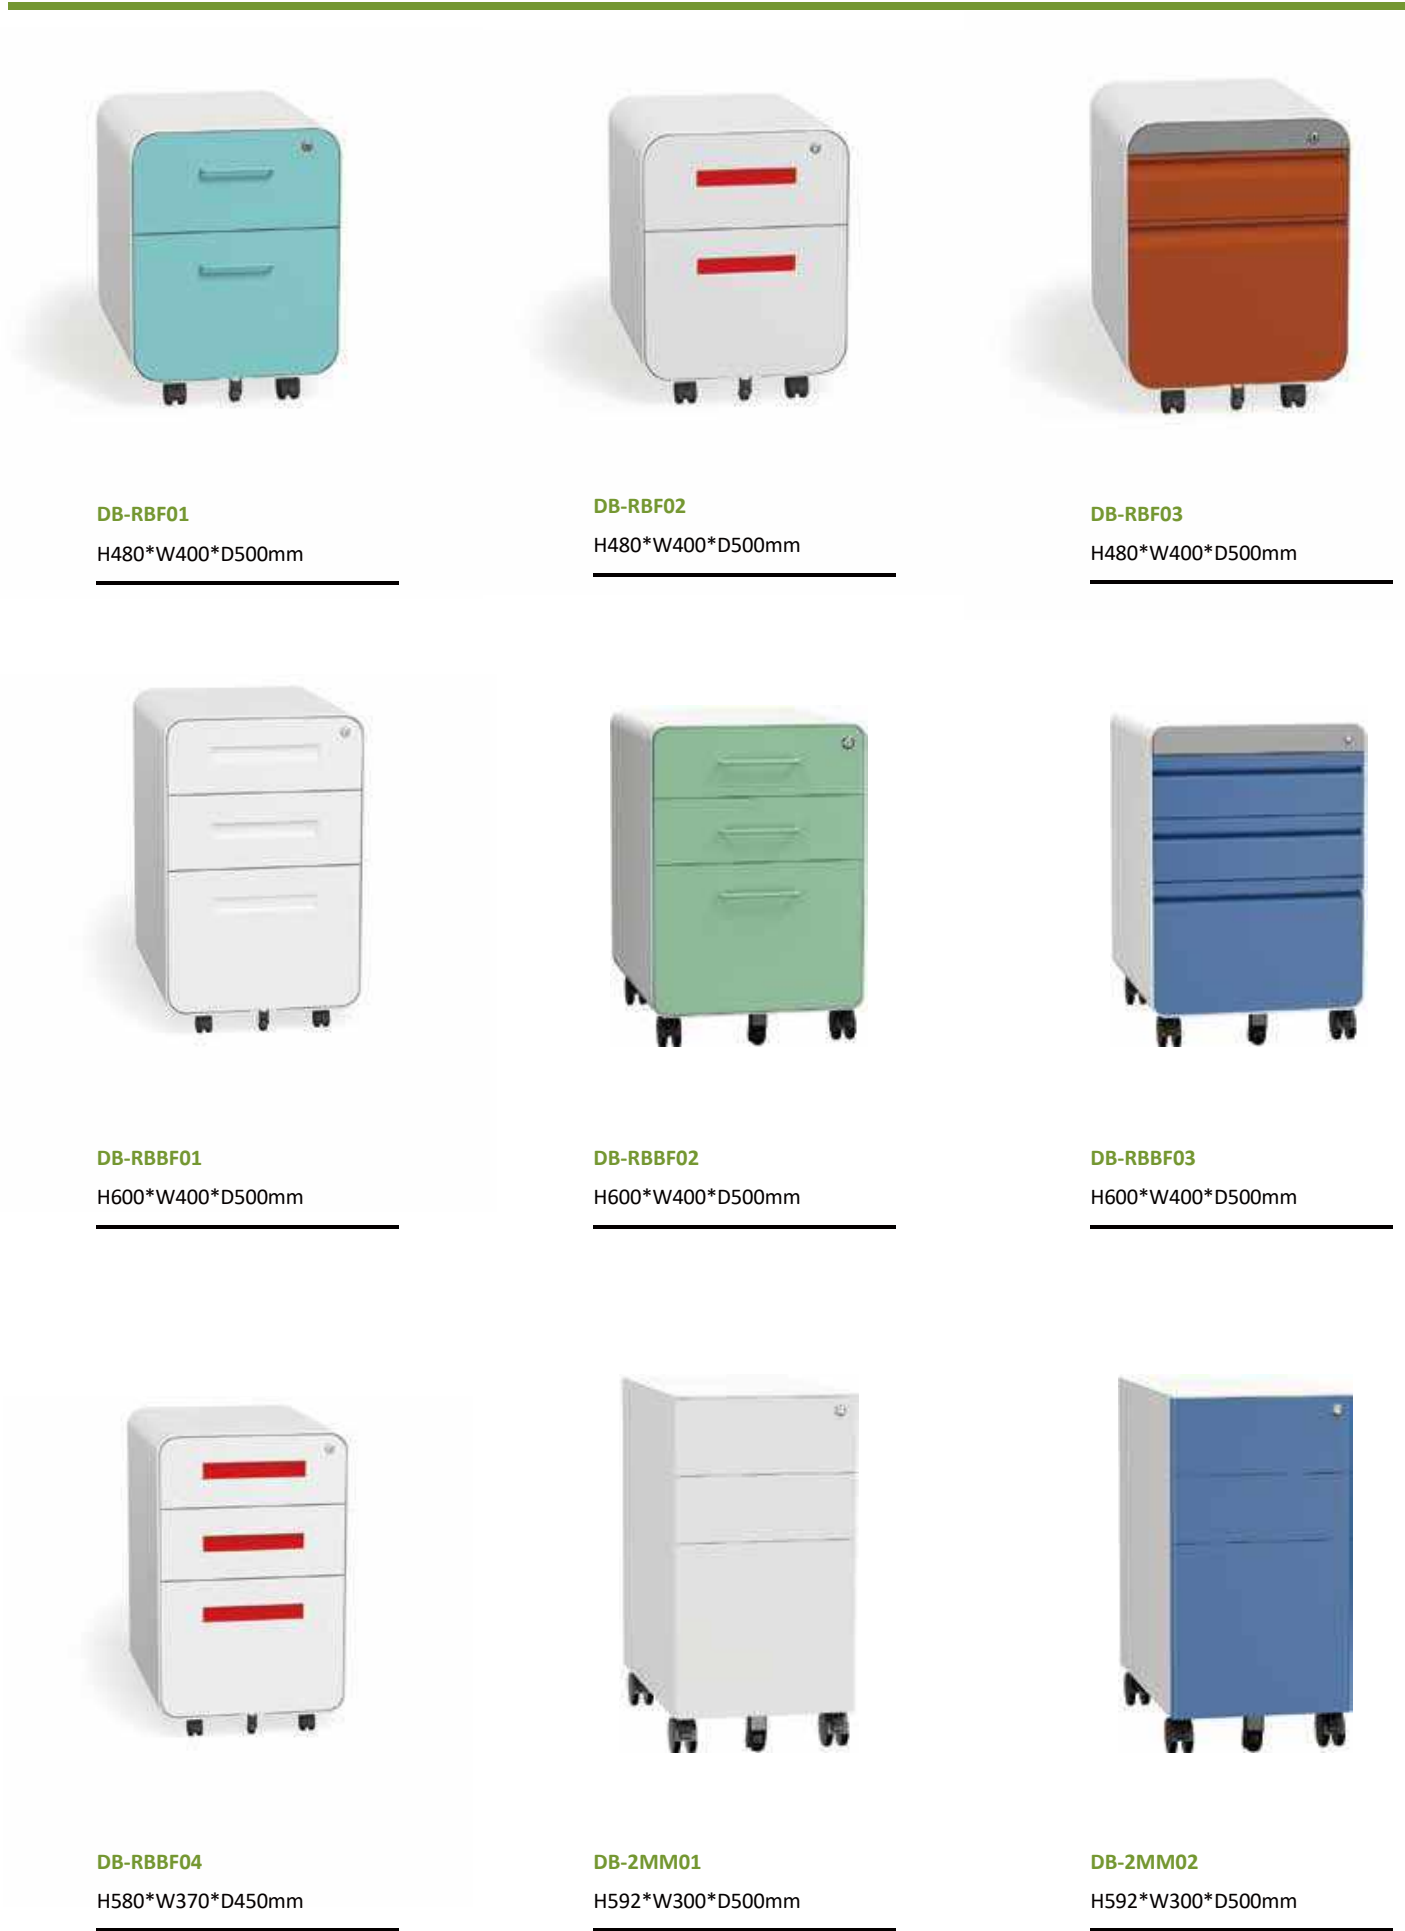

Easily assembled

QUALIFICATIONS

01 MOBILE PEDESTAL SERIES

Description

- Assemble structure, saving time and labor
- 30-degree rounded corneer design, stylish and beautiful
- The size design accords with ergonomics, making it easier to access items
- Can be used in the office or at home,with a wide range of uses

Master key system

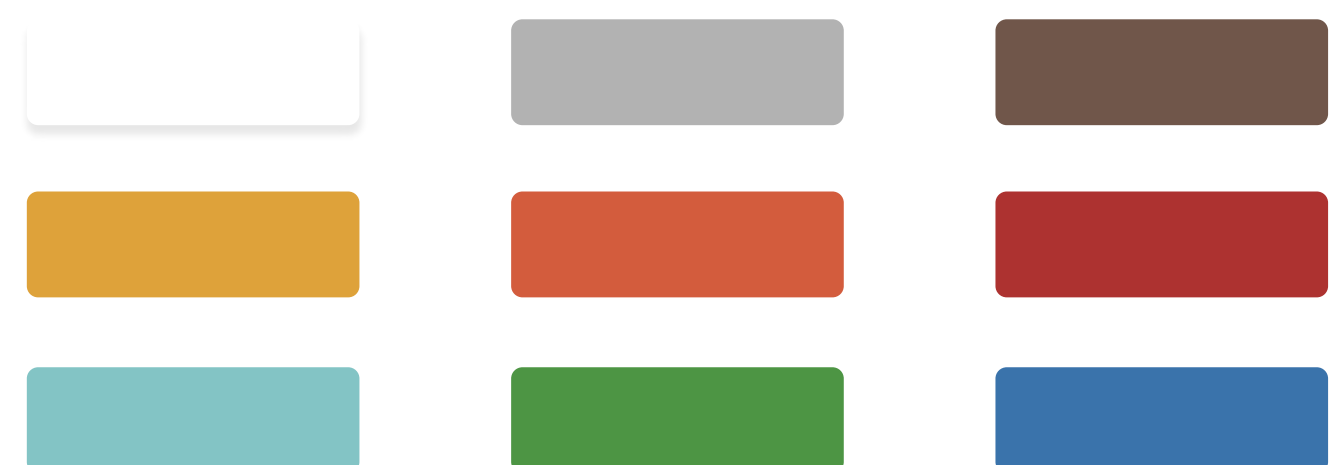

All it takes is a master key to take control of your organization's storage security. This system solves the problem of losing keys or continuing to open storage lockers

Replacement keys system

Interchangeable cylinders for all types of steel cabinets, greatly reducing the need for attribution management of steel cabinets and rapid handling of emergencies such as lost keys

The vacuum heat transfer technology enables second decoration after painting, which forms a variety of wood grains, marble grains, three-dimensional reliefs and other natural effects on the surface. The vivid and delicate texture is comparable to high-end wooden furniture.

Cabinet surface coating is firmer and has the characteristics of:Anti-corrosion, impact, aging, wear, high temperature resistance, waterproof and can be maintained for decades without discoloration.
